Dear Mr. Inele:

Relative to our phone conversation of this morning referring to our license No. 210-0090, Reference No. 1, issued Nov. 28, 1962: None of the radioactive materials licensed under Reference No. 1 are currently in our possession - being depleted in early 1963 during the studies for which they were obtained. Waste disposal was in accordance with approved procedures: by dilution to acceptable limits and transfer to a sewer carrying 6,000,000 gal./day of effluent.

As there are no current plans to continue these studies, will you please delete Reference No. 1 from our license.

Thank you for your kindness in phoning. I appreciate your efforts to help us expedite our application.

Very truly yours,
